# Green Afternoons

Join us on our *Journey to Sustainability* by attending "Green Afternoons" to learn about Herman Miller, Inc. and technologies they are utilizing in commercial buildings to create healthier work environments while enhancing environmental efficiency.

**Thursday, April 9, 2009**

**4:00 p.m. — 5:30 p.m.**

Cucamonga Valley Water District Board Room  
10440 Ashford Street, Rancho Cucamonga

## *Featuring*

*Mark Matusow, Regional Sales Manager for Herman Miller, Inc.*

Herman Miller, Inc., creates exceptional work places and provides innovative solutions through the design, manufacture, and distribution of furnishings, interior products, and related services. Mr. Matusow is the Regional Sales Manager for the west coast and brings a wealth of knowledge with nearly thirty years of experience in sales, marketing and business development. Join us as he presents Convia, a modular and programmable electrical infrastructure that delivers "plug and play" power virtually anywhere within a commercial space without requiring hardwiring of devices or switches. This technology utilizes 100% re-usable components and optimizes energy efficiency in the work place.

"Green Afternoons" will educate and inspire attendees while providing opportunities to share green ideas as we improve our approach to using earth's resources. Light refreshments will be provided.

Please **RSVP** by Tuesday, April 7th.
