

Join thefrontierproject

On our *Journey to Sustainability* by attending two events that will educate and inspire attendees about green jobs and trends in the green industry.

Thursday, February 12th

2:00p.m.-3:30p.m.

Green Collar Jobs

The phrase “going green” is everywhere you turn, but have you ever wondered what that means for the job market? With more companies recognizing the need to function in a more environmentally efficient manner, the job market is shifting. The Green Collar Jobs panel will offer different perspectives from experts in the green job market and how you can prepare yourself for a new career.

Featured Panel Speakers:

- **Joseph Marfi** is a Certified Green Accredited Professional and the Director of Sustainable Design and Construction for Turner Construction Company’s Southern California Office.
- **Bonnie Montoya-May** is the Founding Chair and current President of U.S. Green Building Council-Inland Empire Chapter and Principal with Abundance Unlimited, Inc.
- **Scott Vanhorne** is a District Representative for Supervisor Paul Biane, who launched Green County San Bernardino to promote the use of green technologies and building practices in San Bernardino County.

4:00p.m.-5:00p.m.

Green Afternoons

Featuring Jon Dougal, CGBP, Green Technology Commentary

As a member of the Inland Empire Solar Council and a teacher at Chaffey College, Jon Dougal will provide unique knowledge of the green job industry and what will be required of both students and workers in the near future.

Cucamonga Valley Water District—Board Room
10440 Ashford Street, Rancho Cucamonga

Refreshments will be provided.

Please **RSVP** by Tuesday, February 10th.
