Piedmont Green Building Solutions

- Contractor's Role in a LEED Project
- What credits are the contractor's responsibility and how to document those credits
- Added costs?

**WEBSITE:** <http://chapters.usgbc.org/northerngulfcoast/>

**Chris Miller**, LEED Accredited Professional

Chris has over 11 years of experience working as both an Estimator & Project Manager in the construction industry. While working for Brasfield & Gorrie, LLC, a large regional general contractor, he was on the project management team of Alabama's first LEED certified project, the new Homewood Middle School. Recently, he has started Piedmont Green Building Solutions a LEED/green consulting firm with business partner Beth Brodbeck and they are currently consulting several owners on green projects. Chris served as the founding vice-chair and currently serves as chair of the Alabama Chapter of the U. S. Green Building Council.

Chris is actively working to enhance the awareness of contractors and subcontractors concerning the LEED rating system. Chris also served on the national AGC's (Associated General Contractors of America) Environmental Steering Committee, national AGC's Green Construction Publication Task Force & the Southeast Regional Council of the USGBC.
