

# LEED-NC

# Using LEED-NC on School Projects Module

## Are you ready to enter the rapidly growing green building market?

Attend the Using LEED® for New Construction (LEED-NC) on School Projects Module presented by the U.S. Green Building Council. Gain the knowledge needed to maximize green building practices for improving school design and performance.

### WHY LEARN ABOUT LEED?

Ask any of the 2000 building owners seeking LEED certification right now. School districts are demanding green facilities that save money while protecting the environment, improving health and performance of students, and creating a better learning environment. The USGBC's LEED-NC Green Building Rating System™ is the nationally recognized rating system for green buildings. LEED is already being used by green building projects in all 50 states, and the market continues to grow.

### WHO SHOULD ATTEND?

Industry professionals seeking to increase their understanding of the LEED-NC Rating System and green building strategies, benefits and resources:

- Architects
- Engineers
- Designers
- Manufacturers
- Developers
- Owners
- Consultants
- Contractors
- Government Officials

### WHAT'S COVERED

- LEED project case studies and strategies for schools
- Overview of LEED for Schools Application Guide (under development)
- Green building costs and benefits
- Available tools and resources

### CONTINUING EDUCATION CREDITS AVAILABLE

ASID • IDC • IDEC • IIDA • NKBA

### HOST

### SPONSORS
