

## GREEN INNOVATOR AWARD

### CRITERIA

The **Innovator Award** will be given to individuals, groups or organizations that have created an innovative solution to a green building problem, including existing, new or renovated buildings, systems or operations.

Innovators can be individuals, groups or organizations that have designed or constructed an innovative green building or a feature of a green building.

The intent of the Innovator Award is to honor individuals, groups or organizations that have creatively solved a sustainable building problem, which include:

- Physical solution to a green building problem;
- Financial solution to a green building problem;
- Creative response to a regulatory or governmental limitation or requirement;
- OR an outstanding construction method that solves a green building problem

Discuss how the innovation transforms the built environment of the sector it embraces, including whether the strategies used in this nomination are transferable to other buildings or operations.

Discuss measurements for sustainability of the nomination.

Insightful, innovative or meaningful design, processes, construction or stewardship to achieve sustainability within sustainable building will be given preference.
