

GREEN RESIDENTIAL AWARD

CRITERIA

Residential Award will be given to an individual, group or an organization working to further sustainable residential building, single family or multi-family up to 30 units, through at least one of the following:

- Building design and construction, either new or remodeled;
- Renovation or operations which directly affect sustainability;
- Overall commitment to sustainable building and practices within the residential community.

The intent of the Residential Award is to honor individuals, groups or organizations that have embraced sustainable and/or high-performance building. The nominee should demonstrate a commitment to the evolution of green building, promote awareness of the movement and embody the attributes and innovative spirit of a green building leader.

Emphasis should be on process and innovation, as well as teamwork or obstacles overcome to create an outstanding project or operation.

Sustainable goals for the nomination should be clearly outlined and methods for achievement of these goals should be detailed. Discuss trade-offs and interactions to achieve the goals as well as lessons learned.

Discuss how the project or operation substantially transforms the built environment of the residential sector, including benefits to the owner or occupants and, potentially, the community.

Discuss whether the strategies used in this nomination are transferable to other buildings or operations.

Discuss measurements for sustainability of the nomination.

Insightful, innovative or meaningful design, processes, construction or stewardship to achieve sustainability for residences will be given additional credit.
