Personal Narrative:

Keith Winn is the Principal of Catalyst Partners a business committed to the development and implementation of sustainable design protocols for buildings, interiors, and products.

He is also the Sustainable Design Specialist with the office of Fishbeck, Thompson, Carr & Huber, Inc. (FTC&H), a Michigan based Architectural Engineering and Environmental firm headquartered in Grand Rapids where he provides direction on several building projects and oversees the preparation of LEED certification submittals.

Mr. Winn began his career at Herman Miller where he spent 25 years directing the design of buildings, interiors and products. As a member of Herman Miller's Environmental Quality Action Team (EQAT) he helped to form corporate environmental programs.

Finally, Mr. Winn a founding member of the U.S. Green Building Council (USGBC) has served on the board and was vice-chair of the LEED Steering Committee.
