Personal Narrative

Marc Mondor has over ten years of architectural experience and has been an integral part of Pittsburgh's green building movement for the last decade. Marc has lectured nationally and consulted regionally about green design principles, currently providing green building consulting and LEED training and management services for a wide array of projects and clients.

Marc's ongoing consulting work has led to the nation's first LEED certified supermarket, the first LEED Gold certified place of worship and the first LEED CI Gold certified office space, among other innovative firsts. Current clients include Carnegie Mellon University, Ove Arup and Partners, GetGo Fuel, Giant Eagle Inc, the Milton Hershey School and Point Park University. Marc has also worked for several architectural firms, managing commercial, office, residential and institutional projects.

Marc currently serves on two community development boards and has written about sustainable building and planning. He received his Bachelor of Architecture degree from California Polytechnic State University at San Luis Obispo and studied sustainable design in Scandinavia.
