

MISSISSIPPI HEADWATERS CHAPTER

We welcome your interest in becoming a sponsor of the Mississippi Headwaters Chapter of USGBC! As the local Chapter of the U.S. Green Building Council, we are bringing cutting edge green building principles and practices to Minnesota.

USGBC is a national coalition of contractors, manufacturers, suppliers, utilities, architects, engineers, designers, educational and government institutions, legal, insurance and financial firms, professional societies, trade organizations and environmental groups, along with real estate owners, managers, developers, brokers and appraisers from all across the building industry that is helping to speed the adoption of green building in the marketplace. We invite you to become a key player in making green building a success in our region!

How do Chapter sponsors benefit the sustainable effort? Your support of the Mississippi Headwaters Chapter helps advance the USGBC mission at the local and regional levels. With the support of our sponsors, we have been able to follow our mission to positively transform the building processes, building industry, and communities of our region. We accomplish this by delivering educational programs, LEED workshops, seminars and tours to keep the regional community informed of the latest green building developments. Local industry, government and educational leaders, along with the media, are increasingly turning to the Chapter to find out who is doing what in green building today.

How does the Chapter use the sponsorship funds? Sustaining sponsors make an annual gift in support of the Chapter's programs, events and initiatives throughout the year. Funds received from sponsors also help cover Chapter costs for staff time, promotional materials, and infrastructure needs such as phone, email, letterhead, and the Chapter website.

How does Chapter sponsorship benefit my organization? Be recognized as an industry leader in supporting a better, more sustainable built environment. We have a variety of benefits available to our sponsors, as noted below. To become a sponsor, please click on this link to our sponsorship form and follow the instructions shown on the form. We look forward to working with you in our continuing effort to promote green building principles and practices in Minnesota. If you have any questions, please contact our offices at 952-564-3049.

Thank you for your support.
